

Notice of Public Open House 2 – Brooks Road Landfill Capacity Expansion

Brooks Road Environmental, owners and operators of the Brooks Road Landfill, have initiated an Environmental Screening Process in accordance with Ontario Regulation (O. Reg.) 101/07 – Waste Management Projects Regulation of the Ontario *Environmental Assessment Act (EA Act)* for the proposed expansion (vertical and horizontal) of the Brooks Road Landfill located at 160 Brooks Road, near Cayuga, Haldimand County, Ontario. The capacity expansion proposed under this Environmental Screening Process is for approximately 219,400 cubic metres (including waste and daily/final cover). This capacity increase is a change from the previously proposed increase of 100,000 cubic metres due to a change in O. Reg 101/07.

The proposed capacity expansion would allow Brooks Road Environmental to respond to the growing demands from waste generators and customers who need a safe and reliable waste management facility for disposal of their post diversion solid non-hazardous Industrial, Commercial & Institutional waste. The proposed capacity expansion will add capacity equal to approximately two additional years of waste acceptance over and above the remaining/ current approved capacity. There are no changes to the annual fill rate limits proposed as part of this project.

The location of the Brooks Road Landfill Site is shown on the map below. The purpose of the Environmental Screening is to study the potential effects of the capacity expansion on the environment.

The Process

As described above, the proposed project is subject to the Ministry of the Environment, Conservation and Parks (MECP) Environmental Screening Process for waste management projects in accordance with O. Reg. 101/07 under the *EA Act*. The Environmental Screening will be conducted in accordance with the planning and design process outlined in the Ontario MECP's "Guide to Environmental Assessment Requirements for Waste Management Projects." The Environmental Screening Process includes identifying and applying screening criteria to determine and

describe potential environmental effects, public/external agency consultation, and the development of measures to mitigate identified environmental effects. The results of the Study will be documented in an Environmental Screening Report, which will be released for review to the public, Indigenous communities, and government agencies.

Consultation and Public Open House #2

Members of the public, Indigenous communities, agencies, and other interested persons are encouraged to actively participate in the planning process by attending consultation events or contacting Project Team staff directly with questions. Consultation activities are planned throughout the Environmental Screening Process and will be advertised via direct and/or electronic mail, in the local newspaper, and on the project website (www.brenvironmental.com).

The second **Public Open House** to present the results of the Environmental Studies is scheduled for **October 24, 2023**. The details of the Public Open House are as follows:

Date: Tuesday, October 24, 2023 Drop-In Time: 6 p.m. to 8 p.m.

Location: Cayuga Kinsmen Community Centre – 15 Thorburn Street South, Cayuga

You are encouraged to attend the Public Open House and to submit your comments via the project website (www.brenvironmental.com), mail, email or telephone to the addresses/numbers below.
